

Where Baby Wellness Begins

Teo Glowing Ltd is a UK-based health and wellness innovation company dedicated to transforming early childhood wellbeing through science, design, and technology.

Our Mission: To give every baby the best start in life through calming, sensory, and health-supportive experiences while reducing stress on parents and healthcare systems.

*1,000 early days define a lifetime-
yet families lack calming,
science-backed support*

THE PROBLEM

- **Infant Stress:** Many babies struggle with sleep and bonding in the critical first 1,000 days.
- **Parental Mental Health:** Anxiety and exhaustion impact families long-term.
- **NHS Pressure:** Rising demand for neonatal and \ infant wellbeing support.
- **Special Needs Gaps:** Limited tools for sensory disorders in early childhood.

OUR SOLUTION

TEO GLOWING BABYSPA

The world's first sensory wellness bathing system for infants combining:

- LED Light Therapy – calming sensory environments
- Vibration & Soundscapes – womb-like comfort for better sleep
- Aromatherapy Integration – gentle relaxation benefits
- App Personalisation – customised settings for babies and clinicians
- Ergonomic Design – safety, hygiene, and comfort

PRODUCT ECOSYSTEM & FUTURE PIPELINE

- Teo BabySpa: Core product for home & healthcare use
- Teo ToddlerSpa: Sensory wellness for ages 1–3 years
- Teo Wellness Capsules: Portable pods for hospitals, clinics, hotels, and airports
- Future home-integrated systems & luxury editions

MARKET OPPORTUNITY

- **Global Baby Care Market:** \$100B+ annually
- **Wellness Tech Growth:** 8–10% CAGR
- Rising demand for premium, science-backed products in baby care & healthcare sectors
- Untapped niche: sensory wellness solutions for infants & families
- Seeking £450K seed funding to complete prototype development, conduct NHS & private pilots, achieve certifications, and prepare for commercial rollout

SOCIAL & HEALTHCARE IMPACT

- **For Babies:** Better sleep, relaxation, early sensory development
- **For Parents:** Reduced stress, improved bonding
- **For Healthcare:** Preventative care, lower long-term costs, improved neonatal support
- **For Special Needs:** Adapted sensory technology for autism & developmental disorders
